I'll be wrapping up this morning. So far, I don't have any comments other than, for convenience sake, I wish they had actually put in the referenced section of the HHRA and the EA because HQ will have to go back and look at those again. Perhaps, when we send this to HQ, we should attach the referenced sections from the other documents to make things a little easier/smoothier. HQ might not even have copies of the HHRA and EA on hand anymore.
